On the evening of May 27th, between 11:30 and midnight, I received a call at my home from Marcus Daly Hospital. The operator informed me that she had called 911 dispatch to obtain my phone number.

The next morning I called 911 dispatch supervisor Joanna Hamilton to inform her of this situation. She did not return my calls until the following day, May 29th. She stated that she did not know what I wanted her to do about it since she did not have access to the records. Most places of employment have schedules and ALL 911 calls are logged in with the dispatcher's I.D. Both issues should be relatively simple to confirm.

As Ms. Hamilton does not know how to address this situation, I feel it is necessary to contact Ms. Hamilton's supervisors in order to help her out in this matter.

This is an egregious breach of my privacy and detrimental to my safety and the safety of my loved ones. I would appreciate your assurance that this will not happen again to me, or to any other citizen of this community.

Sincerely,

L. Munoz
